List Sequence Primer ids# to be synthesized :				
Sample Typ	e: bacteria, plasmid or Polymeras	se Chain Reaction (PCR).		PI provide info in the details column above
Sample Req bacteria: res	uirement: sist antibiotic; requisite details; se	equence primer etc		PI provide info in the details column above
plasmid: 100	Ong/ul or higher, 20ul, plasmid na	ame or sequence primer		PI provide info in the details column above
	ed or non purified:			
Purified PCI	R sample: 30 ng/ul or higher, 10- d PCR sample: 30 ng/ul or higher	20ul		PI provide info in the details column above PI provide info in the details column above
Non Purified	1 PCR sample: 30 ng/ul or nigher	, 5001		Pi provide into in the details column above
Sequence re	quest: single direction, double di	rection		PI provide info also in the details column above
We provide	the following primers free of cha	arges.		
M13-47•M13-48•T7•T7 Terminator •T3•Sp6•pGEX5'•pGEX3'•BGH rev.•pGL3+-•5'AOX•3'AOX_5'AD, PQE30+-•PT5•M13-20•M13-26•-96III•PBV220+-•PEGFPN5,N3•PEGFPC3•C5•PCMV5-F•R•a-FACTOR•S-TAG, Pact2F/R,1492R,27F,CMV,U6 promoter primers are provided. Other primers must be provided with samples(> 5 pMoles) or offer the sequence to synthesize.				
TERMS				
Samples not stable at Room temperatures cannot be serviced nor we are responsible in any manner.				
Impure complet that fall to receive any recults shall also be charged. Hence of offer pure complete only alternatively any analysis are under the charged of				
Impure samples that fail to resolve any results shall also be charged. Hence pl offer pure samples only; alternatively you can avail our purification services on charge basis				
Failure to resolve the sample due to Inadequate qty of sample/primer or for any wrong primer design shall also need to be paid by customer Please do not leave any column of this form or information blank.
